

GRANT ENABLES COLLEGE TO RENOVATE SCIENCE LABS

WILLIAM N. PENNINGTON FOUNDATION FUNDS PROJECT

When the renovation of Western Nevada College's biophysical science and cadaver labs is completed next fall, students pursuing careers in science and medical fields stand to benefit the most from the \$1.46 million project funded by the William N. Pennington Foundation.

Along with providing additional space and modern facilities that will enable WNC to better serve more students, the funding will allow instructors to enhance student participation in class and lab activities, and improve their connection to the concepts being taught. **READ MORE.**

WEB-BASED SERVICES ENHANCE STUDENT EXPERIENCE

LIVE CHAT, ONLINE APPOINTMENT BOOKING, WISH LIST FOR FULL CLASSES

WNC has new Web services to help students take care of college business. WNC representatives are available to answer questions through live chat, students can book appointments with key student service staff online, and when classes are full, students can join a Wish List in order to be contacted if additional class sections are made available.
